

TAHARUA RIVER ANGLER ACCESS INFORMATION

Welcome to the Taharua River. Angler access is provided to the Taharua and Mohaka rivers via four access points as detailed on the map above. Anglers should note that there are some conditions on use of the access. More detailed information will be provided in a pamphlet that will be available later this year.

- The four access points are clearly marked with anglers access signs and are located as follows;
 - At Blake bridge, approximately 2Km from the car park
 - At Goose Flat bridge, approximately 5Km from the car park
 - At “The Rock”, approximately 6 Km from the car park
 - At the Mohaka River (10Km from the car park)
- Please stay on the poled route to get to these access points
- Once in the river please stay within the river bed where possible when moving up or downstream
- Privacy zones apply to areas around the buildings on Poronui Ranch, please stay 250 metres from buildings within these zones (as marked on the map)
- Foot access only, no bicycles, motorbikes or 4WD vehicles
- No firearms or dogs within the angler access areas
- No fires and please remove all litter
- The Taharua holds a relatively small number of resident brown trout. To preserve the numbers of trout in this river we encourage catch and release

- Please contact the following people for further information:
 - Eve Reilly Poronui Ranch (07) 384 2080
 - Iain Maxwell Fish and Game (06) 844 2460
